

Celebrating Loved Ones

To many of us, pets are just like a family member. We understand the importance of celebrating the life of your loved ones and your pet in a way that is meaningful to you and your whole family, eternally.

We are now offering two types of burial options in our designated section for your Faithful Friends and Whole-Family. These sections are for those who love their pets and want to know they are in a safe place forever.

Please call or visit us for further details.

Mount Hope
Cemetery Corporation

**Faithful Friends
Pet Section
and
Whole-Family Lots**

FAITHFUL FRIENDS PET SECTION

The Faithful Friends Section is designed for cremated remains of pets only. Each lot has space for two cremation pet burials.

The Faithful Friends Section is an option for those who would like a lasting memorial to their beloved pet. They may have left your side, but they will never leave your heart.

One flat stone marker will be allowed per lot with restrictions.

Burial arrangements can be made by contacting the cemetery office.

WHOLE-FAMILY SECTION

The Whole-Family Section is designed for the cremated remains of humans and their pets only. This will help ensure you will always be with your faithful companion forever. Each lot will accommodate three cremated remains.

Single grave lots or multiple grave lots are available.

An upright monument and one flat marker will be allowed depending on lot size with restrictions.

Formal burial can be arranged traditionally through a funeral home or by contacting the cemetery office.

A HISTORICAL CEMETERY

Established in 1834, Mt. Hope Cemetery Corporation ranks among the earliest of American garden cemeteries. The cemetery grounds include roughly 300 acres of land located on the north bank of the Penobscot River.
